PROFESSIONAL EXPERIENCE

Senior FP&A Manager

2021 – Present

AI-First Product Company (SaaS), Remote

- Lead FP&A function for a \$250 M revenue SaaS business; own annual budgeting, quarterly forecasting and 12-month rolling forecasts.
- Built a multi-scenario financial model that reduced forecast variance from 12 % to 4 % YoY, enabling precise capacity and head-count planning.
- Partnered with product, engineering and go-to-market teams to evaluate feature investments; performed ROI analysis that prioritized initiatives delivering > \$15 M incremental revenue.
- Implemented automated reporting dashboards in Power BI, cutting month-end close time by 30 % and delivering real-time KPI visibility to the executive team.
- Managed a team of 4 analysts, establishing standards for data integrity, documentation and variance commentary.
- Utilized SAP and Oracle ERP data extracts, ensuring accurate financial consolidation and compliance with GAAP and ASC 606.
- Key responsibilities: strategic planning, variance analysis, cost-optimization, scenario planning, stakeholder communication.

FP&A Analyst

2017 – 2021

Data-Driven SaaS Company, Chicago, IL

- Prepared monthly, quarterly and annual financial statements; performed variance analysis against budget and prior periods.
- Developed churn-prediction and customer-lifetime-value models that informed revenue forecasting and helped sales target high-value accounts.
- Supported marketing budget planning, tracking spend efficiency and delivering post-campaign ROI analysis that identified \$2 M in cost-saving opportunities.
- Created ad-hoc financial analyses for senior leadership, including scenario planning for pricing changes and new market entry.
- Collaborated with data-engineering team to integrate financial data pipelines into the company's data lake, improving data availability for reporting.
- Leveraged advanced Excel (Power Query, VBA) and Tableau to automate recurring reports.
- Key responsibilities: budgeting, forecasting, variance analysis, financial modeling, cross-functional partnership.

Business Analyst – Finance

2015 – 2017

Enterprise Software Provider, Chicago, IL

- Assisted senior finance leaders in month-end close activities, ensuring timely and accurate financial reporting.
- Maintained and enhanced financial reporting templates in Excel and Power BI, reducing manual effort by 25 %.
- Performed cost-benefit analysis for new product launches, influencing pricing strategy and go-to-market plans.
- Supported audit preparation and compliance activities, ensuring adherence to internal controls and external regulations.
- Key responsibilities: data reconciliation, reporting automation, cost analysis, audit support.
