Technical & Security: Cloud Architecture (AWS, Azure, Hybrid), ISO 27001, NIST, CISSP, SIEM, Vulnerability Management, Network Design, Firewalls (Palo Alto, Fortinet)

Tools: Workday (HRIS exposure), ServiceNow, Tenable, JIRA, Confluence, Microsoft 365

Languages: English (fluent), Mandarin (fluent), Cantonese (native)

PROFESSIONAL EXPERIENCE

Senior IT Infrastructure & Security Manager

May 2019 – Present

Fortune 500 Insurance Company – Hong Kong

- Led a cloud-first migration of 40+ production applications to AWS, achieving 99.9% uptime while meeting strict regulatory standards.
- Designed and enforced ISO 27001/NIST security frameworks; passed all internal and external audits.
- Managed a team of 8 engineers; responsible for hiring, performance reviews and career development – reduced turnover by 15%.
- Created quarterly security-awareness and technical training programmes for 120 staff, boosting phishing-simulation scores by 30%.
- Partnered with Finance & Procurement to optimise cloud spend, delivering a 12% YoY cost saving.
- Supported HR initiatives by defining competency matrices for technical roles and advising on compensation benchmarks for IT talent.

Systems & Network Engineer

Apr 2015 – Apr 2019

Regional Logistics Firm – Hong Kong

- Maintained Windows & Linux servers and Cisco networking for 200+ users, ensuring 99.5% service availability.
 - Implemented a vulnerability-management programme (Tenable) that cut critical findings by 40% within the first year.
 - Provisioned workstations and access rights for new hires, achieving 100% day-one readiness for HR onboarding.
 - Collaborated with the e-commerce team to optimise network latency for the online order platform, improving checkout speed by 18%.
-
