PROFILE

CISSP and AWS-certified IT leader with 10+ years delivering secure, cloud-first infrastructure for a Fortune 500 insurer. Proven track record in risk-control, internal audit compliance and leading cross-functional technical teams.

SKILLS

Soft: Team Management, Project Management, Leadership, Budgeting, Vendor Management, Business Continuity Planning

Tools: Tenable

Technical: Cloud Architecture, AWS, Azure, Hybrid Cloud, Cybersecurity, ISO 27001, NIST, SIEM, IDS/IPS, Vulnerability Management, Penetration Testing, Networking, Firewalls (Palo Alto, Fortinet), VPN, Load Balancers

EXPERIENCE

Senior IT Infrastructure & Security Manager – Fortune 500 Insurance

2019-05 – Present

- Led a cloud-first migration of 40+ production applications to AWS, achieving 99.99% uptime and strengthening platform monitoring.
- Developed and enforced a cybersecurity framework that satisfied internal and external audit requirements, supporting compliance and risk-control objectives.
- Managed a team of 8 infrastructure and security engineers, demonstrating managerial experience and cross-functional leadership.
- Directed incident-response activities, minimizing business impact and ensuring continuity of operations.

Systems & Network Engineer – Regional Logistics Firm

2015-04 – 2019-05

- Managed and maintained Windows and Linux servers, Cisco networking equipment, and related IT assets, aligning with asset-management practices.
- Implemented a vulnerability management program using Tenable, enhancing risk-control and platform security monitoring.
